Subject: Why A Change?

Why A Change?....

And this wasn't done under the Trump Administration, it only supported his reported personal investments in DAPL.

As an in-depth investigation seems logical as to Trump's conflicts of interest, and is called for by many Democrats, one wonders at the ignorance of the same people toward the Clinton/Biden/Obama dog and pony show.

The excellence by which capitalistic hierarchy, as manifested above, has centralized away from the U. S. public, the freedom and dignity of free trade that should be the cornerstone of American democracy, has come full circle to a culture in which the voice of the public is silenced byway of intimidation and manipulation by those same capitalistic hierarchical employers---

<https://www.aol.com/article/news/2017/02/20/employees-across-us-fired-after-joining-day-without-immigrants/21717601/>

Democratic Establishment and Republican Establishment propaganda has brainwashed voters into believing the 2-Party system is democratic, while no one of a lesser authority than President Washington in his Farewell Address warned the U. S. public against Political Parties that by their very nature would undermine fair and free elections.

At the same time capitalistic hierarchy cynically if not criminally spread propaganda that is equally misleading that implies the free enterprise system is for corporations, when more democratically the system of free enterprise should be the underpinning of the equality, freedom and justice of We The People.

Rigged election traditions, policies and laws in the Primaries placed power in the hands of the Democratic Establishment that harmed the Populist movement of Bernie Sanders. Bernie Sanders and now Keith Ellison are attempting to inject a modicum of democracy into the Democratic Party against the headwind of Democratic Establishment capitalists. The only promise for the Democratic Party is to return to its roots, and eschew the capitalistic hierarchical model of the current Republican Establishment. Money is making it difficult for the D Establishment to act in the interests of the public. This is the reason if Keith Ellison and the Bernie Sanders advocates aren't fully represented in the D Party, the only alternative will be continued support for The Green Party and Jill Stein, that is working to promote the governance of We The People---

And here is Jill Stein, Chris Hedges, and others, **Inaugurate the REsistance**, also on Inauguration Day in Washington.
<https://www.youtube.com/watch?v=RRgR8tYWika>

A definition of insanity is to expect different results while doing the same thing. Capitalism precisely exploits democracy to its own end.

The political scandal is the propaganda that a difference exists between Republican Establishment and Democratic Establishment. If not so, why would Russian steel have been used for the DAPL pipeline? One can imagine the cronyism between oligarchs around the globe, and within the U. S. Administrations that should have at its foundation, service to the U. S. public, not to international corporations.

A leadership that works for the U. S. public is long overdue. The electorate has been undermined in attempts to elect into office a governance of, by and for The People be rigged elections and archaic rules and laws. The first step is to demand an ethical and open election process, rather than a Banana Republic joke.

It's not about voter fraud, which seems to be rare. It is about rigged elections. Rigged by whom? Perhaps the political parties against which no less an authority than President Washington in his Farewell Address warned the U. S. public. Demand of your legislators attention to these matters, rather than creating red herrings to change the subject----

Corporate-owned mainstream media pundits didn't give coverage to Presidential Candidates Bernie Sanders or Jill Stein. This is in keeping with their propaganda in favor of capitalism. Jill Stein continues to actively work for democracy----A workshop is offered----Philadelphia, Pa., localities---

Subject matter--

Recounts and Election Integrity

1. Verifiable Elections- Paper Ballots and Voting Machine Audits
2. Legislating Verifiable Elections
3. To be announced

Fair Representation

1. Ranked Choice Voting
2. Redistricting
3. Barriers to Ballot Access

Voting Justice

1. Electoral Jim Crow
2. Systemic Impediments to Voting
3. Racial Disenfranchisement

Money and Influence

The participation in democracy that is called grassroots is precisely that which an engaged public does in order to secure governance of, by and for The People. Otherwise a globalization will become policy at the behest of capitalistic hierarchy that enriches only the 1%, which 1% wouldn't be a reality in keeping with justice, equality and pursuit of happiness, if the U. S. democracy hadn't been betrayed by those 1%'ers and 1%'er wannabees. In other words, running government like a business which could be a

definition of organized crime.

The response by the 99% in Solidarity is the only sane course---
